Born in Buenos Aires, Argentina, Mauricio Castro is the founder of Tango discovery and a renowned dancer and teacher of Argentine Tango. He created and developed a personal style of dancing and teaching tango in Buenos Aires and then, through Tango discovery, he brought it to the rest of the world.

To his solid musical education at the prestigious Berklee College of Music (Boston, USA), he added contemporary dance and movement technique studies (Laban Analysis, Bartenieff Fundamentals and The Skinner Releasing Technique, among others). In addition, he also studied Human Sciences in Neuro Linguistic Programming, Design Human Engineering and Human Ecology.

The joining of these disciplines and influences allowed him to create his particular and unmistakable style, systematizing it into an innovative method to accelerate the process of learning to dance.

Breaking out from rigid sequences, his focus is to develop improvisation skills through a simple and dynamic technique where students discover not only a relaxed and released style, but also a new way of expressing and communicating with their bodies.

The synthesis of his method, recognized worldwide by hundred of dancers, is available not only by attending his classes but also in his books and cutting-edge multimedia CD-ROMs, available in several languages. ABOUT THE TANGO DISCOVERY PROGRAM:

In his third visit to Minneapolis Mauricio will introduce a complete program on Tango Improvisation for All Levels.

You'll be using a very easy method of improvisation under his directions that will start with very simple steps and will build up to integrate elements as sacadas, boleos and ganchos so you will be able to Lead and follow anything at any point in time. You'll learn how to spontaneously create your own sequences as you improvise with fluidity and ease.

The program includes: Elements in Time, Multilevel Sequencing, Cycle Sequencing, Multilevel Sequencing in Time and Cycle Sequencing in Time.

Here's Mauricio's words about his own Workshops:

I teach all levels at the same time, because I believe that the level of the dancer is measure by the amount of people that he/she can dance of any level. That means if you have been lead to believe that you are advance, you will have to show it in class with everybody.

Mauricio will give everybody in class, the tools and understandings that will propel everyone into being able to dance with any person of any level in any and all styles. The name is TANGO DISCOVERY!!!!
